IJIFR is a prestigious international UGC guidelines approved peer reviewed multidisciplinary research journal renowned for its high impact factor, global indexing, excellence in scholarly publishing, strict ethical standards, COPE based review process and outstanding worldwide research visibility.

CALL FOR ORIGINAL RESEARCH PAPERS

Volume 14 | Issue 1 | September 2026

Continuous 158th Edition

We are pleased to invite researchers, academicians, scientists, industry professionals, research scholars and postgraduate students to submit their original, unpublished and high-quality research papers for consideration in the September 2026 edition of the International Journal of Informative & Futuristic Research (IJIFR).

Every manuscript is considered through a structured editorial process covering:

Initial Editorial Screening → Plagiarism Assessment → Peer Review → Author Revision, Where Required → Editorial Decision → Final Processing → DOI Assignment → Online Publication

Our objective is not merely to publish papers, but to promote credible, original, methodologically sound and academically meaningful research.

Why Choose IJIFR for Your Research Publication?

At IJIFR, we are committed to providing authors with a complete and professional research publication experience that goes beyond publication alone. Every accepted research paper benefits from scientific double-blind peer review, advanced plagiarism screening, professional article formatting and publication support and a clear and transparent editorial workflow from initial screening through peer review, revision, final decision, DOI assignment and online publication. Authors receive a DOI for every published paper, supporting persistent article identification, citation and discoverability, along with author e-certificates and digital access to the published journal edition. Published research is made available through the journal's online platform, supporting long-term accessibility, global discoverability and metadata dissemination through relevant scholarly and digital channels. With a broad multidisciplinary scope covering emerging and established areas of research, IJIFR provides researchers, academicians, scholars and professionals with a convenient platform to publish, share, showcase and contribute their original research to the wider academic community.

Key Author Benefits Include:

- **International Peer-Reviewed & Refereed Journal**
- **Open Access Publication for Wider Research Accessibility**
- **Publishing Quality Research Since 2013**
- **Impact Factor (2026): 8.74**
- **DOI Assigned to Every Published Research Paper**
- **Double-Blind Peer Review by Qualified Reviewers**
- **Advanced Plagiarism Screening Before Publication**
- **Editorial Evaluation for Research Quality & Academic Presentation**
- **Global Visibility through Indexing & Metadata Platforms**
- **Permanent Online Availability of Published Research**
- **Monthly Publication Schedule for Timely Dissemination**
- **Individual E-Certificate for Published Authors**
- **Digital Publication / E-Book Access for Authors**
- **Professional Article Formatting & Publication Support**
- **Transparent Editorial & Publication Process**
- **Affordable and Researcher-Friendly Publication Charges**

We Welcome Research from Multiple Disciplines

IJIFR welcomes original research contributions in areas including:

Management | Commerce | Economics | Finance | Business Studies | Education | Social Sciences | Computer Science | Information Technology | Engineering | Science & Technology | Artificial Intelligence | Data Science | Cybersecurity | Healthcare | Medicine | Psychology | Environmental Studies | Humanities | Multidisciplinary Research

We particularly encourage submissions presenting:

Original empirical research • Quantitative & qualitative studies • Case studies • Analytical studies • Conceptual research • Review studies • Emerging interdisciplinary research • Technology-driven research • Innovative models and Realistic frameworks

For Authors Seeking Greater Research Recognition

A publication with IJIFR provides authors with opportunities to:

- **Disseminate research internationally**
- **Establish a permanent scholarly publication record** Improve online discoverability of published work
- **Share research through a convenient open-access platform**
- **Receive publication documentation and author certificates**
- **Showcase research achievements in academic and professional profiles**
- **Contribute to contemporary multidisciplinary knowledge**

Researchers are encouraged to submit manuscripts that demonstrate originality, research significance, methodological rigor, clear analysis and meaningful conclusions. Submit your original research and take the next step toward wider scholarly visibility. We look forward to receiving your valuable research contribution and supporting its journey toward wider academic dissemination.

Best Regards,

Editors
